“

The impact of NIET extended me beyond graduation and a college of such quality provided placement & right guidance to me. Students from such a college are really well-equipped to put their work in context and adequately prepared to move from one intellectual challenge to another. NIET inspired me to dream big & take larger vision, using the knowledge that I acquired during my studies. My heartfelt gratitude to all the faculties of NIET for being so inspiring and for those countless invaluable lessons that went far beyond the mere content of our syllabus.

”

NIET
Greater Noida

NIET is a place to learn. It offers everything that is required for an all round development of a student - competitive environment, state-of-the-art infrastructure and great faculty. The one thing that sets it apart from the other institutions is the range of courses it offers beyond curriculum. With all the resources provided its left to the student how well he/she uses them

It's my privilege to be here again and memorize all the good and old memories. NIET has been able to climb such great heights in such a short time. With a blend of brilliant faculty members, excellent infrastructure, its unique course curricula and a sound learning ambience, NIET has successfully produced some of the finest minds around.

NIET is an immense knowledge house and a great opportunity for the motivated students.

NIET helped me identify the course of my career that I wanted to take and prepared me for it. It helped me build a rock solid platform upon which I stood and took my steps into the future. After spending four priceless years here, and having got a glimpse of the outside world, I can proudly say that NIET has put me a notch above most engineers like me.

**Trainee
Biocon, Bangalore**

Those four years of my life have been the most memorable and gave me those moments that will be cherished forever. NIET gave me the best of education, best of friends and the best of fun. Apart from the eminent faculty, flexible curriculum the diversity of students in terms of socio-economic background, culture, language and religion gives NIETians a unique advantage. Last but not the last, I owe NIET for what I am today and I am happy that I made the right decision to join NIET.

Saying that the four years in NIET were the best days of my life would be a huge understatement. The time spent in the serene campus involved in various societies and activities, changed my views on how to live life and get things done. Faculty at Department of Biotechnology, have always helped me take the plunge in directions which I would have never believed in because of my risk averse ways of doing things.
