NIET
Greater Noida
GET FUTURE READY

**NOIDA INSTITUTE OF ENGINEERING AND
TECHNOLOGY; GREATER NOIDA**

**DEPARTMENT OF
ELECTRONICS AND COMMUNICATION ENGINEERING**

VISION

To prepare the students for global competence, with core knowledge in electronics and communication engineering having focus on research to meet the needs of industry and society.

MISSION

- M1: To become dynamic and vigorous knowledge hub with an exposure to state of art technologies for connecting world.
- M2: To provide in-depth knowledge of Electronics and Communication Engineering ensuring the effective teaching learning process.
- M3: To train students to take up innovative projects in group with sustainable and inclusive technology relevant to the industry and social needs.
- M4: To empower students to become skilled and ethical entrepreneurs.
- M5: To promote and adapt professional development in a perpetual demanding environment and nurture the best minds for the future.

MD's message

Dr. OP Agarwal

- Success is not a one-shot process. It is the result of a continuous improvement after each failure. The fear of failure needs to be captured in order for a person to learn from his failure too. It is an invaluable opportunity to rectify errors and move forward. Failure in working for a good cause is better than success in working for a wrong cause.
- Over the years now, NIET has built quite a special position in the private higher education sector. With its distinctive culture, it provides a clear student-centered environment in which to explore existing technical knowledge, and gain new learning at the leading edges of technology development.

EVP's message

Mr. Raman Batra

This new generation is an interesting one. Most of them are born in a world where technology has always been at the forefront. These students rely on Google, texting, social media and Wi-Fi, and they view email - not letter writing - as a formal form of communication.

NIET has a Pyramid Finishing School, which provides 360 degree training to the students in employability skills as required by industries. The Institute has also made tie-ups with MNCs like Microsoft, Oracle, KPMG, ICICI Direct. These tie-ups not only promise to enhance student employability by manifold, but also take the lead in encouraging 'innovative' learning. Taking the league forward, we have established various innovation labs to provide students hands-on experience in modern-day technologies. We impart experiential learning and thereby progressively enhance the competencies of our teaching staff and our students.
